THE PATENTS ACT

THE PATENTS REGULATIONS, MADE DECEMBER 7, 1906,
UNDER SECTION 48 OF THE PATENTS ACT.

1. SHORT TITLE. These Regulations may be cited as the Patents Regulations.

2. INTERPRETATION. (1) In these Regulations—

“The Act” means the Patents Act;

“United Kingdom” includes the Isle of Man;

“Foreign Application” means an application duly made by any person for protection of his invention in any place to which the provisions of sections 46 or 47 of the Act shall have become applicable;

“convention application” means an application in Antigua and Barbuda under the provisions of section 46 of the Act.

(2) Save as aforesaid any words herein used defined by the Act shall have the meanings thereby assigned to them respectively.

3. FORMS. The Forms contained in the First Schedule may, as far as they are applicable, be used in any proceedings under the Act or under these Regulations.

4. APPLICATION BY REPRESENTATIVE OF DECEASED INVENTOR. In the case of an application for a patent by the legal representative of a person who has died possessed of an invention, the Probate of his Will, or the Letters of Administration granted of his estate and effects, or an official copy of such Probate or Letters, shall be produced at the Registrar's office in proof of the applicant's title as such legal representative, and must be supported by such further evidence as the Registrar may require.

5. ORDER OF RECORDING APPLICATIONS. (1) Applications for patents sent through the post shall, as far as may be practicable, be opened and numbered in the order in which the letters containing the same have been respectively delivered in the ordinary course of post.

(2) Applications left at the Registrar's office otherwise than through the post shall be in like manner numbered in the order of their receipt at the Registrar's office.

6. CLAIMS. The statement of the invention claimed, with which a complete specification must end, shall be clear and succinct as well as separate and distinct from the body of the specification.

7. ONE INVENTION. (1) When a specification comprises several distinct matters, they shall not be deemed to constitute an invention by reason only that they are all applicable to or may form parts of an existing machine, apparatus, or process.

(2) Where a person making application for a patent has included in his specification more than one invention, the Registrar may require or allow him to amend such application and specification and drawings or any of them so as to apply to one invention only, and the applicant may make application for a separate patent for any invention excluded by such amendment.

(3) Every such last mentioned application may, if the Registrar at any time so direct, bear the date of the original application or such date between the date of the original application and the date of the application in question, as the Registrar may direct, and shall otherwise be proceeded with as a substantive application in the manner prescribed by the Act and by any regulations thereunder for the time being in force.

(4) When the Registrar has required or allowed any application, specification or drawings to be amended as aforesaid, such application shall, if the Registrar at any time so direct, bear such date, subsequent to the original date of the application and not later than the date when the amendment was made, as the Registrar shall consider reasonably necessary to give sufficient time for the subsequent procedure relating to such application.

8. EXTENSION OF TIME FOR LEAVING AND ACCEPTING COMPLETE SPECIFICATION. An application for extension of time for leaving or accepting a complete specification shall be made on Form U or on Form V in the First Schedule as the case may require, and shall state in detail in what circumstances, and upon what grounds such extension is applied for, and the Registrar may require the applicant to substantiate such allegations by such proof as the Registrar may think necessary.

9. NOTICE AND ADVERTISEMENT OF ACCEPTANCE. On the acceptance of a provisional or complete specification, the Registrar shall give notice

thereof to the applicant, and shall advertise the acceptance of every complete specification in the *Gazette*.

10. INSPECTION OF COMPLETE SPECIFICATION. Upon such acceptance in the case of a complete specification, the application and specification, or specifications, with the drawings (if any), may be inspected at the Registrar's office upon payment of the prescribed fee.

11. CONVENTION APPLICATIONS. Every convention application shall contain a declaration that foreign application has been made for protection of the invention to which such convention application relates, and shall specify all the places in which such foreign applications have been made, and the official date or dates thereof, respectively. The application must be made within twelve months from the date of the first foreign application, and must be accompanied by a complete specification, and signed by the person or persons by whom such first foreign application was made. If such person, or any of such persons be dead, the application must be signed by the legal representative of such dead person, as well as by the other applicants, if any.

12. FOREIGN SPECIFICATION &C. TO ACCOMPANY SPECIFICATION. Every convention application, in addition to the specification left therewith, must be accompanied by a copy or copies of the specification, and drawings or documents filed or deposited by the applicant in the Patent office of the place in respect of the first foreign application, duly certified, by the official chief or head of the Patent office of such place as aforesaid, or otherwise verified to the satisfaction of the Registrar. If any specification or other document relating to the application is in a foreign language, a translation thereof shall be annexed thereto and verified by statutory declaration or otherwise to the satisfaction of the Registrar.

13. PROCEEDINGS. Save as aforesaid and as provided by regulation 50, all proceedings in connection with a convention application shall be taken within the times and in the manner prescribed by the said Act or these regulations for ordinary applications.

14. SIZE, &C. OF DOCUMENTS. (1) All documents and copies of documents, except drawings, sent to or left at the Registrar's office, or otherwise furnished to the Registrar, shall be written, typewritten, lithographed, or printed in the English language (unless otherwise directed) in large and legible characters with deep permanent ink upon strong white paper, and, except in the case of statutory declarations and affidavits, on one side only, of a size of approximately 13 inches by 8 inches, leaving

a margin of at least one inch and a half on the left hand part thereof, and the signatures thereto must be written in a large and legible hand. Duplicate documents shall at any time be left, if required by the Registrar.

(2) At the top of the first page of a specification a space of about two inches should be left blank.

15. DRAWINGS ACCOMPANYING SPECIFICATIONS. Drawings, when furnished, should accompany the provisional or complete specification to which they refer, except in the case provided for by regulation 22. No drawing or sketch such as would require the preparation for the printer of a special illustration for use in the letterpress of the specification when printed should appear in the specification itself.

16. REQUIREMENTS AS TO PAPER. Drawings may be made by hand or lithographed, printed, &c. They must be made on pure, white, hot-pressed, rolled, or calendered strong paper of smooth surface, good quality, and medium thickness without washes or colours, in such a way, as to admit of being clearly reproduced on a reduced scale by photography. Mounted drawings must not be used.

17. SIZE OF DRAWINGS AND ARRANGEMENT OF FIGURES. Drawings must be on sheets which measure 13 inches from top to bottom and are either from 8 inches to $8\frac{1}{4}$ inches or from 16 inches to $16\frac{1}{2}$ inches wide, the narrower sheets being preferable. If there are more figures than can be shown on one of the smaller sized sheets, two or more of these sheets should be used in preference to employing the larger size. When an exceptionally large drawing is required, it should be continued on subsequent sheets. There is no limit to the number of sheets that may be sent in, but no more sheets should be employed than are necessary, and the figures should be numbered consecutively throughout, and without regard to the number of sheets. The figures should not be more numerous than is absolutely necessary. They should be separated by a sufficient space to keep them distinct.

18. DRAWINGS TO BE SUITABLE FOR REPRODUCTION. (1) Drawings must be prepared in accordance with the following requirements—

- (a) They must be executed with absolutely black ink;
- (b) Each line must be firmly and evenly drawn, sharply defined, and of the same strength throughout;
- (c) Section lines, lines for effect, and shading lines, should be as few as possible, and must not be closely drawn;

(*d*) Shade lines must not contrast too much in thickness with the general lines of the drawing;

(*e*) Sections and shading should not be represented by solid black or washes;

(*f*) They should be on a scale sufficiently large to show the invention clearly, and only so much of the apparatus, machine, &c., should appear as effects this purpose. If the scale is given, it should be drawn, and not denoted by words.

(2) Reference letters and figures, and index numerals used in conjunction therewith must be bold, distinct, and not less than one-eighth of an inch in height. The same letters should be used in different views of the same parts. Where the reference letters are shown outside the figure, they must be connected with the parts referred to by fine lines.

19. DRAWINGS TO BEAR NAME OF APPLICANT &C., BUT NO DESCRIPTIVE MATTER. Drawings must bear the name of the applicant, (and, in the case of drawings left with a complete specification after a provisional specification, the number and year of the application) in the left hand top corner; the number of sheets of drawings sent, and the consecutive number of each sheet, in the right hand top corner; and the signature of the applicant or his agent in the right hand bottom corner. Neither the title of the invention nor any descriptive matter should appear in the drawings.

20. COPIES OF DRAWINGS. (1) A facsimile or "true copy" of the original drawings must be filed at the same time as the original drawings, prepared strictly in accordance with the above regulations, except that it may be on tracing cloth and the reference letters and figures should be in black-lead pencil.

(2) The words "original" or "true copy" must in each case be marked at the right hand top corner, under the numbering of the sheet.

21. DELIVERY OF DRAWINGS. Drawings must be delivered at the Registrar's office so as to be free from folds, breaks, or creases, which would render them unsuitable for reproduction by photography.

22. PROVISIONAL DRAWINGS USED FOR COMPLETE SPECIFICATION. If an applicant desires to adopt the drawings lodged with his provisional specification as the drawings for his complete specification, he should refer to them in the complete specification, as those left with the provisional specification.

23. FORM OF STATUTORY DECLARATION AND AFFIDAVIT. The statutory declarations and affidavits required by these regulations, or used in any proceedings thereunder, shall be headed in the matter or matters to which they relate and shall be drawn up in the first person, and shall be divided into paragraphs consecutively numbered, and each paragraph shall so far as possible be confined to one subject. Every statutory declaration or affidavit shall state the description and true place of abode of the person making the same, and shall be written or printed bookwise, and shall bear the name and address of the person leaving it and shall state on whose behalf it is left.

24. MANNER IN WHICH, AND PERSONS BEFORE WHOM, DECLARATION OR AFFIDAVIT IS TO BE TAKEN. The statutory declarations and affidavits required by the Act and these regulations, or used in any proceedings thereunder, shall be made and subscribed as follows—

(a) In Antigua and Barbuda, before any Commissioner or other Officer authorized by law to administer an oath for the purpose of any legal proceeding;

(b) In the United Kingdom, before any Justice of the Peace, or any Commissioner or other Officer authorized by law in any part of the United Kingdom to administer an oath for the purpose of any legal proceeding;

(c) In any other part of the Commonwealth before any Court, Judge, Justice of the Peace, or any Officer authorized by law, to administer an oath there for the purpose of a legal proceeding; and

(d) If made out of the Commonwealth before the principal representative of Antigua and Barbuda, a British Minister, or person exercising the functions of a British Minister, or a Consul, Vice-Consul, or other person exercising the functions of a British Consul, or before a Notary Public or before a Judge or Magistrate.

25. INDUSTRIAL OR INTERNATIONAL EXHIBITIONS. Any person desirous of exhibiting an invention at an industrial or international exhibition, or of publishing any description of the invention, during the period of the holding of the exhibition, or of using the invention for the purpose of the exhibition in the place where the exhibition is held, may after the Registrar has given a certificate that the exhibition is an industrial or international one, give to the Registrar notice on Form O in the First Schedule of his intention to exhibit, publish, or use the invention as the case may be. For the purpose of identifying the invention in the event of an application for a patent being subsequently made, the inventor shall

furnish to the Registrar a brief description of his invention, accompanied, if necessary, by drawings and such other information as the Register may in each case require.

26. EXERCISE OF DISCRETIONARY POWERS BY REGISTRAR. Before exercising any discretionary power given to the Registrar by the Act or these regulations adversely to the applicant for a patent or for amendment of a specification, the Registrar shall give ten days' notice, or such longer notice as he may think fit, to the applicant of the time when he may be heard personally or by his agent before the Registrar.

27. NOTICE BY APPLICANT. Within five days from the date when such notice would be delivered in the ordinary course of the post, or such longer time as the Registrar may appoint in such notice, the applicant shall notify in writing to the Registrar whether or not he intends to be heard upon the matter.

28. REGISTRAR MAY REQUIRE STATEMENT, ETC. Whether the applicant desires to be heard or not, the Registrar may at any time require him to submit a statement in writing within a time to be notified by the Registrar, or to attend before him and make oral explanations with respect to such matters as the Registrar may require.

29. DECISION TO BE NOTIFIED TO PARTIES. The decision or determination of the Registrar in the exercise of any such discretionary power as aforesaid, shall be notified by him to the applicant, and to any other person who appears to him to be affected thereby.

30. NOTICE OF OPPOSITION. A notice of opposition to the grant of a patent shall be on Form D in the First Schedule, and shall state the ground or grounds on which the person giving such notice (hereinafter called the opponent) intends to oppose the grant, and must be signed by him. Such notice shall state his address for service, and shall be accompanied by a copy, which copy shall be transmitted by the Registrar to the applicant.

31. EVIDENCE IN SUPPORT OF ALLEGATION THAT INVENTION HAS BEEN OBTAINED FROM OPPONENT. Where the ground of an opposition is, that the applicant has obtained the invention from the opponent, or from a person of whom such opponent is the legal representative, unless evidence in support of such allegation be left at the Registrar's office within fourteen days after the expiration of two months from the date of the advertisement of the acceptance of the applicant's complete specification, the opposition shall be deemed to be abandoned.

32. ATTENDANCE OF DECLARANT ON REGISTRAR. Where the ground of an opposition is that the applicant has obtained the invention from the opponent, or from a person of whom such opponent is the legal representative, the Registrar may request or allow any person who has made a statutory declaration in the matter to which the opposition relates to attend before him at the hearing of the case and make oral explanations with respect to such matters as the Registrar may require.

33. PARTICULARS OF PRIOR PATENT. Where the ground or one of the grounds of opposition is that the invention has been patented in Antigua and Barbuda on an application of prior date, the number and date of such prior application shall be specified in the notice.

34. OPPONENT'S EVIDENCE. Except in the case provided for in regulation 31, statutory declarations need not be left in connection with an opposition, but the opponent may within fourteen days after the expiration of two months from the date of the advertisement of the acceptance of the applicant's complete specification, leave at the Registrar's office statutory declarations in support of his opposition, and on so leaving shall deliver to the applicant copies thereof.

35. APPLICANT'S EVIDENCE. Within fourteen days from the delivery of such copies, the applicant may leave at the Registrar's office statutory declarations in answer, and on so leaving shall deliver to the opponent copies thereof, and within fourteen days from such delivery the opponent may leave at the Registrar's office his statutory declarations in reply, and on so leaving shall deliver to the applicant copies thereof. Such last-mentioned declarations shall be confined to matters strictly in reply.

36. APPLICANT'S EVIDENCE IF OPPONENT DOES NOT LEAVE STATUTORY DECLARATIONS. If the opponent does not leave statutory declarations in support of his opposition, the applicant may (if he desires so to do) within three months from the date of the advertisement of the acceptance of his complete specification, leave at the Registrar's office statutory declarations in support of his application, and on so leaving shall deliver to the opponent copies thereof.

37. OPPONENT'S EVIDENCE. Within fourteen days from the delivery of such copies, the opponent may leave at the Registrar's office statutory declarations in answer, and on so leaving shall deliver to the applicant copies thereof, and within fourteen days of such delivery, the applicant may leave at the Registrar's office his statutory declarations in

reply, and on so leaving shall deliver to the opponent copies thereof. Such last mentioned declarations shall be confined to matters strictly in reply.

38. CLOSING OF EVIDENCE. No further evidence shall be left on either side except by leave, or on the requisition, of the Registrar.

39. HEARING. On completion of the evidence (if any) or at such other time as he may see fit, the Registrar shall appoint a time for the hearing of the case, and shall give the parties ten days' notice at the least of such appointment. If either party does not desire to be heard, he shall as soon as possible notify the Registrar to that effect. If either party desires to be heard, he must leave Form E in the First Schedule at the Registrar's office. The Registrar may refuse to hear either party who has not left Form E prior to the date of hearing. If either party intends to refer at the hearing to any publication other than a specification mentioned in the notice of opposition, he should, unless the same has been referred to in a statutory declaration already filed, give to the other party and to the Registrar five days' notice at the least of his intention, together with details of each publication to which he intends to refer. After hearing the party or parties desirous of being heard, or if neither party desires to be heard, then without a hearing the Registrar shall decide the case and notify his decision to the parties.

40. REQUEST FOR LEAVE TO AMEND. A request for leave to amend a specification must be signed by the applicant and shall contain an address for service in Antigua and Barbuda. When not made in pursuance of an order of the Court, or a Judge, the request must, where a patent has been sealed, also contain a statement that no action for infringement nor proceeding for revocation of the patent is pending. The request must be accompanied by a duly certified copy of the original specification and drawings, showing in red ink the proposed amendment, and shall be advertised by publication of the request, and the nature of the proposed amendment in the *Gazette*, and, in such other manner (if any), as the Registrar may in each case direct.

41. LEAVE BY ORDER OF COURT. Where a request for leave to amend is made in pursuance of an order of the Court or a Judge, an office copy of the order shall be left with the request at the Registrar's office.

42. NOTICE OF OPPOSITION. A notice of opposition to the amendment shall be on Form G in the First Schedule and shall state the ground or grounds on which the person giving such notice (hereinafter called the opponent) intends to oppose the amendment, and must be signed by him. Such notice shall state his address for service, and shall be accompanied by a copy, which copy shall be transmitted by the Registrar to the applicant.

43. OPONENT'S EVIDENCE. Within fourteen days after the expiration of one month from the first advertisement of the application for leave to amend, the opponent may leave at the Registrar's office statutory declarations in support of his opposition, and on so doing shall deliver to the applicant copies thereof.

44. FURTHER PROCEEDINGS. Upon such declarations being left, and such copies being delivered, the provisions of regulations 35, 38 and 39, shall apply to the case, and the further proceedings therein shall be regulated in accordance with such provisions as if they were here repeated.

45. APPLICANT'S EVIDENCE IF OPONENT DOES NOT LEAVE STATUTORY DECLARATIONS. If the opponent does not leave statutory declarations in support of his opposition, the applicant may (if he desires so to do) within two months from the date of the first advertisement of the application for leave to amend, leave at the Registrar's office statutory declarations in support of his application, and on so leaving shall deliver to the opponent copies thereof.

46. FURTHER PROCEEDINGS. Upon such declarations being left, and such copies being delivered, the provisions of regulations 37, 38 and 39, shall apply to the case, and further proceedings therein shall be regulated in accordance with such provisions as if they were here repeated.

47. REQUIREMENTS ON AMENDMENTS. Where leave to amend is given the applicant shall, if the Registrar so require, and within a time to be limited by him, leave at the Registrar's office a new specification and drawings as amended, to be prepared in accordance with regulations 14 to 21.

48. ADVERTISEMENT OF AMENDMENT. Every amendment of a specification shall be advertised forthwith by the Registrar in the *Gazette*, and in such other manner (if any), as the Registrar may direct.

49. ENTRY OF GRANT. Upon the sealing of a patent the Registrar shall cause to be entered in the register of patents the name, address, and calling of the patentee as the grantee thereof, and the title of the invention, together with the address for service.

50. ENTRY IN RESPECT OF CONVENTION APPLICATION. The patent granted on any convention application shall be entered in the register as dated of the date on which the first foreign application was made, and the payment of renewal fees, and the expiration of the patent, shall be reckoned as from the date of the first foreign application.

51. ALTERATION OF ADDRESS. If a patentee sends to the Registrar on Form R in the First Schedule, notice of an alteration in his address, the Registrar shall cause the register to be altered accordingly.

52. REQUEST FOR ENTRY OF SUBSEQUENT PROPRIETORSHIP. Where a person becomes entitled to a patent, or to any share or interest therein, by assignment, or by transmission, or other operation of law, a request for the entry of his name in the register as such complete or partial proprietor of the patent, or of such share or interest therein, as the case may be, shall be addressed to the Registrar, and left at the Registrar's office.

53. FORM AND SIGNATURE OF REQUEST. Such request shall be on Form L in the First Schedule, and shall in the case of individuals be made and signed by the person requiring to be registered as proprietor, or by his agent duly authorised to the satisfaction of the Registrar, and in the case of a body corporate by its agent, authorized in like manner.

54. PARTICULARS TO BE STATED IN REQUEST. Every such request shall state the name, address and calling of the person claiming to be entitled to the patent, or to any share or interest therein, as the case may be, and the particulars of the assignment, transmission, or other operation of law, by virtue of which he claims to be entered in the register as proprietor, so as to show the manner in which, and the person or persons to whom, the patent, or such share or interest therein as aforesaid, has been assigned or transmitted.

55. PRODUCTION OF DOCUMENTS OF TITLE AND OTHER PROOF. (1) Every assignment, and every other document containing, giving effect to, or being evidence of, the transmission of a patent, or affecting the proprietorship thereof as claimed by such request, except such documents as are matters of record, shall, unless the Registrar in his discretion, otherwise directs, be produced to him together with the request, and such other proof of title as he may require for his satisfaction.

(2) As to a document which is a matter of record, an official or certified copy thereof shall in like manner be produced to the Registrar.

56. COPIES FOR REGISTRAR'S OFFICE. There shall also be left with the request an attested copy of the assignment or other documents or copy above required to be produced.

57. BODY CORPORATE. A body corporate may be registered as proprietor by its corporate name.

58. ENTRY OF ORDERS OF CABINET OR OF THE COURT. Where an order has been made by the Cabinet for the extension of a patent for a further term, or for the grant of a new patent, or where an order has been made for the revocation of a patent under section 28 of the Act, or otherwise affecting the validity or proprietorship of the patent, the person in whose favour such order has been made shall forthwith leave at the Registrar's office an office copy of such order. The register shall thereupon be rectified or the purport of such order shall otherwise be duly entered in the register, as the case may be.

59. ENTRY OF DATE OF PAYMENT OF FEES ON ISSUE OF CERTIFICATE. Upon the issue of a certificate of payment under regulation 66, the Registrar shall cause to be entered in the register a record of the date of payment of the fee on such certificate.

60. ENTRY OF FAILURE TO PAY FEES. If a patentee fails to make any prescribed payment within the prescribed time, or any enlargement thereof duly granted, there shall be duly entered in the register a notification of such failure.

61. ENTRY OF NOTIFICATION OF LICENCE OR OTHER DOCUMENT. An attested copy of every licence granted under a patent, or of any other document purporting to affect the proprietorship of a patent, shall be left at the Registrar's office, with a request on Form M in the First Schedule, that a notification thereof may be entered in the register. The accuracy of such copy shall be certified as the Registrar may direct, and the original document shall at the same time be produced and left at the Registrar's office if required for further verification.

62. HOURS OF INSPECTION OF REGISTER. The register of patents shall be open to the inspection of the public on every weekday except Saturday between the hours of 9 a.m. and 3.30 p.m., except on the days and the times following—

(a) Christmas Day, Good Friday, days observed as days of public fast or thanksgiving, and days observed as public holidays; or

(b) Days which may from time to time be notified by a placard posted in a conspicuous place at the Registrar's office;

(c) Times when the register is required for any purpose of official use.

63. CERTIFIED COPIES OF DOCUMENTS. Certified copies of any entry in the register, or certified copies of, or extracts from, patents, specifications, disclaimers, affidavits, statutory declarations, and other public documents in the Registrar's office, or of or from registers or other books kept there, may be furnished by the Registrar on payment of the prescribed fee.

64. PAYMENT OF FEES FOR CONTINUANCE OF PATENT. (1) If a patentee intends at the expiration of the fourth year from the date of his patent to keep the same in force, he shall, before the expiration of the fourth and each succeeding year during the term of the patent, pay the prescribed fee. The patentee may pay the whole or any portion of the aggregate of such prescribed annual fees in advance.

(2) The Form J in the First Schedule should be used for the purpose of this payment.

65. PRESCRIBED FEES. The fees specified in the Second Schedule shall be payable in respect of the matters to which they specifically apply.

66. ENLARGEMENT OF TIME FOR PAYMENTS. An application for an enlargement of the time for making a prescribed payment shall state in detail the circumstances in which the patentee by accident, mistake, or inadvertence has failed to make such payment, and the Registrar may require the patentee to substantiate by such proof as he may think necessary the allegations contained in the applications for enlargement.

67. CERTIFICATE OF PAYMENT. On due compliance with the terms of regulation 64, and as soon as may be after such respective periods as aforesaid, or any enlargement thereof respectively duly granted, the Registrar shall issue a certificate that the prescribed payment has been duly made.

68. PETITION FOR GRANT OF COMPULSORY LICENCE OR REVOCATION OF PATENT. A petition to the Cabinet for an order under section 24 of the Act shall show clearly the nature of the petitioner's interest, and the ground or grounds upon which he claims to be entitled to relief, and shall state in detail the circumstances of the case, the terms upon which he asks that an order may be made, and the purport of such order, and the name and address of the patentee, and any other person who is alleged in the petition to have made default.

69. PETITION TO BE LEFT WITH EVIDENCE AT REGISTRAR'S OFFICE. The petition and an examined copy thereof shall be left at the Registrar's office accompanied by affidavits or statutory declarations in

proof of the allegations contained in the petition together with any other documentary evidence in support, and the petitioner shall simultaneously with, or as soon as may be after the leaving of such petition, deliver to the patentee and any other person who is alleged in the petition to have made default, copies of the petition and of such affidavits or statutory declarations and other documentary evidence in support.

70. OPONENT'S EVIDENCE. (1) The persons to whom such copies are delivered by the petitioner, may within fourteen days after being invited to do so by the Cabinet, leave at the Registrar's office their affidavits or statutory declarations in answer, and if they do so shall deliver copies thereof to the petitioner; and the petitioner may within fourteen days from such last-mentioned delivery leave at the Registrar's office his affidavits or statutory declarations in reply, and if he does so shall deliver copies thereof to the patentee or any other person alleged in the petition to have made default, such last-mentioned affidavits or statutory declarations being confined to matters strictly in reply.

(2) The times prescribed by this regulation may be altered or enlarged by the Cabinet if they think fit, upon such notice to parties interested, and upon such terms, if any, as they may direct.

71. CLOSING OF EVIDENCE. No further evidence than as aforesaid may be left by either side at the Registrar's office, except by leave or on requisition of the Cabinet, and upon such terms, if any, as the Cabinet may think fit.

72. POWER OF AMENDMENT, &C. Any document, for the amending of which no special provision is made by the Act may be amended, and any irregularity in procedure, which in the opinion of the Registrar may be obviated without detriment to the interests of any person, may be corrected, if and on such terms as the Registrar may think fit.

73. GENERAL POWER TO ENLARGE TIME. The times prescribed by these regulations for doing any act, or taking any proceeding thereunder, other than the times for lodging evidence referred to in regulation 31, or in the procedure in these regulations relating to compulsory licences and revocation of patents, may be enlarged by the Registrar if he thinks fit, and upon such notice to other parties, and proceedings thereon, and upon such terms, as he may direct.

74. POWER TO DISPENSE WITH EVIDENCE. Where, under these regulations, any person is required to do any act or thing, or to sign any document, or to make any declaration on behalf of himself or of any body

corporate, or any document or evidence is required to be produced to or left with the Registrar, or at the Registrar's office, and it is shown to the satisfaction of the Registrar that from any reasonable cause such person is unable to do such act or thing, or to sign such document, or make such declaration, or that such document or evidence cannot be produced or left as aforesaid, it shall be lawful for the Registrar, upon the production of such other evidence, and subject to such terms as he may think fit, to dispense with any such act or thing, document, declaration, or evidence.

75. HOURS OF BUSINESS. The Registrar's office shall be open to the public every weekday except Saturday between the hours of 9 a.m. and 3.30 p.m. except on the following days—

Christmas Day, Good Friday, the days observed as days of public fast or thanksgiving, or as public holidays, and days which may from time to time be notified by a placard posted in a conspicuous place at the Registrar's office.

76. LEAVING DOCUMENTS. Any application, notice, or other document, authorized or required to be left, made, or given at the Registrar's office, or to the Registrar, or to any other person under these regulations, may be sent by a pre-paid letter through the post, and if so sent shall be deemed to have been left, made, or given at the time when the letter containing the same, would be delivered in the ordinary course of post. In proving such service, or sending, it shall be sufficient to prove that the letter was properly addressed and put into the post.

77. AGENCY. With the exception of the signing of the following documents, namely, applications for patents, requests for leave to amend applications, specifications, or letters patent, authorizations of agents, notices of oppositions, requests for issue of duplicate letters patent, notices of abandonment of or of intention not to proceed with applications, surrenders of letters patent, and petitions for compulsory licence and revocation of patent, all communications to the Registrar under the Act and these regulations may be signed by and all attendances upon the Registrar may be made by or through an agent duly licensed under section 35 of the Act. In any particular case, the Registrar may, if he think fit, require the personal signature or presence of an applicant, opponent, or other person.

FORM W

Form of Patent

[L.S.] By His Excellency (*here insert the name of the Governor-General*).

Governor-General of Antigua and Barbuda.

To all to whom these presents shall come, Greeting:

WHEREAS of in ,
hath by his solemn declaration represented unto me that
he is in possession of an invention for , that he is
the true and first inventor thereof, and that the same is not in use by any other
person to the best of his knowledge and belief:

And Whereas the said inventor hath humbly prayed that I would be pleased
to grant unto him (hereinafter together with his executors, administrators, and
assigns, or any of them, referred to as the said patentee) Letters Patent in the
name of Her Majesty for the sole use and advantage, of his said invention within
Antigua and Barbuda:

And Whereas the said inventor hath by and in his complete specification
particularly described the nature of his invention:

Know Ye, therefore, that I, in the name and on behalf of Her Majesty, do
by these Presents, give and grant unto the said patentee my special licence, full
power, sole privilege, and authority, that he the said patentee by himself, his
agent, or licensees, and no others, may at all times hereafter, during the term
of years herein mentioned, make, use, exercise, and vend the said invention within
in such manner as to him or them may seem meet, and
that the said patentee shall have and enjoy the whole profit and advantage from
time to time accruing by reason of the said invention, during the term of fourteen
years from the date hereunder written of these presents: and to the end that the
said patentee may have and enjoy the sole use and exercise and the full benefit
of the said invention, I do by these presents require and strictly command all
and every person and persons, bodies politic and corporate, and all others of what
estate, quality, degree, name, or condition soever they be within Antigua and
Barbuda, that they do not at any time during the continuance of the said term
of fourteen years, either directly or indirectly, make use of or put in practice the
said invention, or any part of the same, nor in anywise imitate the same, nor
make or cause to be made any addition thereto or subtraction therefrom, whereby
to pretend themselves the inventors thereof, without the consent, licence, or agree-
ment of the said patentee in writing under his hand and seal, on pain of incurring
such penalties as may be justly inflicted on such offenders for their contempt and
of being answerable to the said patentee according to law for his damages thereby
occasioned:

Provided always and these Letters Patent are on this condition, that, if any time during the said term it be made to appear to the Supreme Court that this grant is contrary to law, or prejudicial or inconvenient to Her Majesty's subjects in general, or that the said invention is not a new invention as to the public use and exercise thereof or that the said patentee is not the first and true inventor thereof within Antigua and Barbuda as aforesaid, these Letters Patent shall forthwith determine, and be void to all intents and purposes, notwithstanding anything hereinbefore contained:

Provided also, that if the said patentee shall not pay all fees by law required to be paid in respect of the grant of these Letters Patent, or in respect of any matter relating thereto at the time or times, and in manner for the time being by law provided; and also if the said patentee shall not supply or cause to be supplied, for Her Majesty's service in Antigua and Barbuda, all such articles of the said invention as may be required by the Officers administering any department of Her Majesty's service in Antigua and Barbuda in such manner, at such times, and at and upon such reasonable prices and terms as shall be settled for that purpose by the Governor-General of Antigua and Barbuda, then, and in any of the said cases, these Letters Patent, and all privileges and advantages whatever hereby granted shall determine and become void, notwithstanding anything hereinbefore contained:

Provided also, that nothing herein contained shall prevent the granting of licences in such manner and for such considerations as they may by law be granted; and lastly, I do by these Presents in the name and on behalf of Her Majesty grant unto the said patentee that these Letters Patent shall be construed in the most beneficial sense for the advantage of the said patentee. In witness whereof I have caused these Letters to be made Patent this day of and to be sealed one thousand nine hundred and day of and dated as of the said in the one thousand nine hundred and year of Her Majesty's Reign.
